Distinguished Research Scientist
Living Marine Resources Cooperative Science Center (LMRCSC)

The Department of Natural Sciences invites applications for a twelve-month, grant-funded, full-time position. The Department of Natural Sciences offers B.S. degrees in various disciplines, and M.S and Ph.D. interdisciplinary programs in Marine-Estuarine Environmental Sciences (MEES), M.S. and Ph.D. degrees in Toxicology, and a Professional Science Master’s degree in Quantitative Fisheries and Resources Economics. Salary is commensurate with experience and qualifications.

Responsibilities:
- Provide leadership to expand the Center’s research work in NOAA fisheries related areas.
- Facilitate and coordinate research among the Center partner institutions and with NOAA Fisheries.
- Seek and attract external funding to support the LMRCSC as well as assist and involve other faculty and students in promoting research and scholarship.
- Coordinate the annual LMRCSC Science meetings.
- Request for Proposals (RFP), and proposal review process conducted by the Center’s Technical Advisory Board.
- Facilitate student professional development.
- Serve as the Center’s point of contact for initiating student Experiential Research Training Opportunities at NOAA.
- Conduct research in his/her field of expertise.
- Recruit and mentor graduate students.
- Publish in scholarly journals.
- Teach one course a semester in his/her area of specialty.
- Performs other related duties as assigned.

Qualifications:
- Ph.D. in marine science, fisheries science, biology or zoology, from a regionally accredited institution of higher education.
- Five years of successful teaching and/or research experience in a university, federal or state agency.
- Significant record of grantsmanship, research, and publication in marine and/or fisheries sciences.
- Evidence of participation in professional organizations.
Preferred Qualifications:
- Advanced open-water Diving or Instructor Certifications

Knowledge/Skills/Abilities:
- Demonstrated ability to lead, manage, and coordinate an interdisciplinary research program.
- Effective interpersonal, verbal and written communication skills.

The University of Maryland Eastern Shore has mandated that all candidates accepting an offer of employment are required to be vaccinated. The university will consider exemptions from the requirement for medical or religious-based reasons. Individuals seeking an exemption from this requirement for medical or religious reasons must complete an exemption form before their start date and return the form to the human resources department.

Review of applications will begin immediately and continue until the position is filled. Qualified applicants should submit a cover letter, resume, unofficial transcripts (official transcripts will be required once an offer is accepted), and the names of three current, professional references to include e-mail address and telephone number. All applicants must apply using the new online application system. Please visit http://umes.peopleadmin.com to apply. The successful candidate must be able to accept employment in the United States without Employer Immigration sponsorship.

UMES is an EEO/AA employer and will not discriminate against any employee or applicant because of race, age, sex, color, sexual orientation, religion, national origin, marital status, genetic information, or political affiliation. Minorities, women, veterans, and persons with disabilities are encouraged to apply. The successful candidate must be able to show acceptable documentation establishing the right to accept employment in the United States of America without employer sponsorship.
